

Shygirl Shlut Song Lyrics

[Chorus]

Ride, baby, ride

I'm buggin' over you looking down

Hold tight, say you won't let go

Stay the night and we can lay low

I can't deal with the thought of you leavin'

Me left staring at the ceiling, solo

I do better with you on my team

Stay the night and we can lay low

[Verse 1]

Woke up feelin' like a slut, yeah, I like that

Hit a couple guys, they concur, I'm a bad bitch

Low down, dirty, when I like, and I like it, yeah

Tell you what I want, I better find you here

Ready and waiting and willing to keep me

Entertained, twice nightly, weekly

Body right, pussy tight, you can try that easy

Nevermind, I'm fucking with myself

[Chorus]

Ride, baby, ride

I'm buggin' over you looking down

Hold tight, say you won't let go

Stay the night and we can lay low

I can't deal with the thought of you leavin'

Me left staring at the ceiling, solo

I do better with you on my team

Stay the night and we can lay low

[Verse 2]

Yeah, it's you that I'm thinkin' of when I'm feelin' hot

Your voice dripping like honey straight from the honey pot

Don't stop running on my mind, I can't get enough

Is it so bad to just like to be touched?

Wanted, ravished, mauled, adored

Clothes stripped, laying naked, but I'm caged in your arms

I'm a bad girl, but I don't know what for

When it feels so good, I'ma do what I want

I wish I were you just to get a piece of me

Sex therapy, I can come if you wanna hit repeat

Nympho, yeah, boy, you know I never miss a beat

Get to know every inch, study my philosophy

Yeah, I know, every time I leave, you're looking the key

I can't take the high sensitivity

I can't take the high sensitivity

I can't take the high sensitivity

[Chorus]

I can't deal with the thought of you leavin'

Me left staring at the ceiling, solo

I do better with you on my team

Stay the night and we can lay low

THE END
